

Hubble, Bubble, Big Bang in Trouble

A Video Presentation
from *Creation Ministries International*
featuring **Dr. John Hartnett**

Contrary to the big bang theory's billions of years, we may actually be seeing a 6,000-years-ago creation right now! Physicist Dr. John Hartnett argues persuasively that quasars are not (as popularly believed) massive objects at the universe's edge, but embryonic galaxies ejected from mature galaxies in our own neighborhood.

August 19th meeting --- Alameda Bible Church at 220 El Pueblo Road, Southwest of the Paseo, Del Norte and 2nd Street interchange.

September 16th 2008 meeting --- Faith Bible Church at the corner of Moon and Central.

(generally), and start at 7:00 p.m.*

Statement of Purpose

The Creation Science Fellowship of New Mexico, Inc. (CSFNM) is a Christian Fellowship devoted to the Christian and scientific aspects of Origins. CSFNM:

- (1) Educates the public about the importance of creation in relation to its scientific, social, and spiritual values.
- (2) Promotes and encourages creation research.
- (3) Presents the vast scientific evidences for creation.

CSFNM is a 501(3)(c) organization supported by private gifts and donations. Annual memberships are tax-deductible.
