

**At the  
Center  
of the Action**

This is the video of **Dr. John Hartnett's** presentation to CSF  
on January 25, 2008 when he was in Albuquerque.

In spite of the fact that he told us *we* talk funny – like *he* wasn't the one with the accent  
. . . and

he has strange phone numbers on his site – but I guess that's because they're in Australia,  
. . . anyhow

he assuredly gave an interesting talk! If you missed it you really need to see it, and if you  
did see it, I'm sure you'll be there again.

If you scroll to the bottom of Dr. Hartnett's site, you'll see he has a new book due out soon,

## Discover Creation!

Seminar by Alpha Omega Institute

In August Faith Bible Church hosted four excellent presentations that were geared to the whole family by former evolutionary scientists, **Lanny and Marilyn Johnson**. Oh, and they had Eugene with them. Eugene is their lion puppet, and he entertained us kids of all ages.

The four topics discussed Sunday were:

Where Did We Come From?  
Fibonacci Numbers  
Dinosaurs  
Fossils

I found the Fibonacci Numbers particularly interesting and did a little searching. There's much available, but I'll limit my references to the following two:

- There is a Fibonacci Numbers article on Creation Ministries International web site, written by Carl Wieland and Russell Grigg, titled *Golden Numbers*.  
<http://creationontheweb.com/content/view/945/>.
- Ex-atheist, John N Clayton, has a site [www.Doesgodexist.com](http://www.Doesgodexist.com). There is much on that site, but the way I got there was after watching his video, *Fibonacci Curves*, on YouTube at <http://www.youtube.com/watch?v=jiMmWnHpFyU>.
